Is there a message you would like to share with your fellow Clinic alums, faculty, or staff?

I am now back in Korea and do not practice law any more (my work is mostly on research and assist with drafting law), but the research skills I learned through real life cases made the foundation for legal research.

What would you tell current or future DePaul law students about the clinic?

It was the most meaningful and profound experience

Is there anything else you would like to share about your clinic experience?

I feel bad for not being able to keep in touch with friends and professors, so thank you for this opportunity, and congratulations on the 25th anniversary!
